

New Advanced Footwear and Orthotics Service

Refer Your Patients to Able Motion Podiatrists

Comprehensive Care for Complex Lower Limb Needs

Our clinic is now offering specialised assessment, prescription, and fitting of medical-grade and custom-made footwear and orthotics. We work with industry-leading providers to deliver state-of-the-art solutions, including:

- ▶ **Custom orthotics** using 3D scanning technology
- ▶ **Supramalleolar orthoses, UCBL devices and ankle and lower leg braces** to support only where support is needed and maintain function and movement
- ▶ **Ankle-Foot Orthoses (AFOs)** designed for optimal support and movement
- ▶ **Custom footwear** for patients who cannot wear off-the-shelf shoes.

Why Refer to Us?

Specialised Training

Our Able Motion podiatrists have advanced training in complex gait assessment and prescription of extended lower limb devices.

Collaborative Approach

We work closely with referring doctors, orthotists, and pedorthists for the best patient outcomes.

Clear Communication

Expect comprehensive reports, treatment updates, and ongoing patient support.

Ideal Patients for Referral

- ▶ Neurological conditions including stroke, multiple sclerosis, Parkinson's disease
- ▶ Structural deformities, rheumatoid arthritis, Charcot foot, Ehlers-Danlos syndrome
- ▶ Post-surgical recovery or significant gait abnormalities.

Referral Process

- 1 Call us at **(XX) XXXX XXXX** or email **XXXXXX@myfootdr.com.au**
- 2 Provide relevant patient history and mobility concerns
- 3 We'll handle the assessment, prescription, and ongoing care.
